

I have just heard that you want to turn KLOVE into a LPFM station. I am urging you to please not do this.

KLOVE (91.3 in San Antonio) is a very important ministry to many Christians in our community. With all the other garbage out there on the airwaves, it is nice to turn on KLOVE 91.3 and not only hear the Word of God, but hear good, clean, music with a good message. I believe also that KLOVE goes beyond just playing music for their listeners. They offer prayers for people, direct people to other Christian outlets that we can and our families can benefit from. There is enough trash, bad language, sexual innuendos's, etc... out there, why would you feel the need to to disrupt the good that KLOVE is providing to their many listeners.

KLOVE also announces different community events through their station which allows their listeners to go out and help their community.

Please reconsider this decision. If you were to do this to this station you would be taking away a very important ministry.

Thank you,
Karen Butler
